200ml capacity for single servings
-  **WEIGHT**
0.31kg weight for easy transport
-  **BREWING TIME**
5-minute espresso brewing cycle

-  **MATERIAL**
Stainless steel construction with food-grade safety
-  **COMPATIBILITY**
Works on gas, electric, and induction stoves
-  **PORTABILITY**
3-piece nestable design for camping use

Who It Is For

-  Campers needing portable coffee equipment
-  Home brewers seeking manual espresso method
-  Coffee enthusiasts wanting barista-grade results
-  Users avoiding disposable coffee pods

Who It Is Not For

-  People without compatible stovetop types
-  Those needing instant coffee preparation
-  Users preferring electric coffee machines

Trade Offs to Consider

-  Manual operation requires attention
-  Longer brewing time than espresso machines
-  No automatic pressure control features

How It Compares

-  Electric espresso machines with pre-infusion
-  Disposable pod systems with pre-measured doses
-  Traditional French press alternatives

Choose This If...

- ✓ Prioritize durability and portability
- ✓ Want barista-grade espresso at home
- ✓ Need zero-waste coffee solution

✗ Skip This If...

- ✗ Require instant coffee preparation
- ✗ Need electric machine compatibility
- ✗ Preferring automatic pressure control
